Laws We Don't Need

The school lobby has a bill coming into the Senate (House Bill 402) which will eliminate the necessity of publishing the individual salaries of teachers and other school personnel.

The law requiring publication of a detailed financial accounting of all monies used by tax-supported bodies has always been the best insurance the taxpayers could have against waste of money, theft or corruption.

If teachers or other personnel are touchy about having the amount of their salary published, we can only say they're in the wrong business. The taxpayer has a right to know how much he's paying the teachers, he has a right to know if his children's teachers are adequately paid. And this is the only way he can know.

We'll wager the teachers would be as upset as other taxpayers if the salary of the mayor, the senators, and other public officials were kept secret. They should be!

No, a lump category of salaries, supplies and other designations is not enough. Particularly, it is not enough as schools and their expenses get bigger and bigger. Write to your State Senator and tell him to keep school records public. They are YOUR business.

Courthouse Notebook

BY LOU DURKIN

Residents in flood threatened areas are probably relieved to know that studies have been made of flood conditions in Lake County.

There have also been surveys made, reports written, maps drawn, money appropriated and spent.

Unfortunately, not one spade of earth has been turned or a single levee constructed to guard against the floods which will probably inundate a considerable portion of Lake County in the flood plains areas of the Des Plaines River and the Fox River.

The weather of the past several weeks coupled with a sudden arrival of real spring weather could produce a major flood situation, a situation as costly as that of a few years ago which prompted the studies and the surveys.

The County Board of Supervisors initiated inquiries and entered into lengthy correspondence with the U. S. Corps of Engineers to seek some action, but except for an exchange of letters there has been little action.

Unfortunately, letters and reports don't make a very substantial flood control project.

Some of the county board members whose constituents live in the areas threatened by spring floods are up for re-election and they are reportedly seriously concerned about the situation.

Not especially about the flooding as such, mind you, but more concerned with the effect a flood in their townships might have on their chances of re-election.

Some of them would no doubt be happy to get up at a county board meeting and demand some action for the people who are in danger of expensive flood damage, but they won't get a chance because the township elections will be held before the next board meeting.

A new drive has been launched to raise money for a suitable Lake County Museum of History on county-owned property in Libertyville.

This is a worthy cause and one deserving of the aid of everyone in Lake County.

We hope, however, the museum officials will see fit to include all types of Lake County history in the exhibits and not just those which will provide a sugar-coated image of the county.

It is hard to imagine a history of Lake County with-

out some reference to the colorful, if somewhat seamy, days of Prohibition when some of our more respected citizens laid the foundation for their financial success.

And what would a history of Lake County be without a rundown on the giddy days of slot machines, gambling casinos, and houses of pleasure.

We would hope that the directors would set aside a room in which a student of Lake County history could study some of the inside political history of the county.

A historian wishing to do a bit of research into this phase of Lake County's colorful past could do worse than stop in at the Parkway Restaurant and spend a few enjoyable hours with Eddie (Chop Chop) Hoff, the noted raconteur, historian, and mixologist.

Some of Chop Chop's stories are a matter of record, but most of them have escaped the attention of official chroniclers, but nonetheless they are spiced with names, places, and the smack of authenticity.

Isn't it a relief to know that if and when the Illinois General Assembly finally gets around to writing a re-apportionment bill for the legislature that it will be a bill free of politics and based purely and simply on justice and fair play?

It is encouraging to see the neophyte blue stocking legislators casting aside political consideration in order to produce a truly non-partisan document.

It is also encouraging to realize that the Chicago White Sox and the Chicago Cubs will win their respective pennant races and meet in the World Series in 1965.

SPACE REQUIREMENT

No matter who does the carving, he or she will need plenty of room! There's elbow room on the table as well as room on the platter which holds the roast. If there are any garnishes on the side of the carver where he works, it might be a good idea to remove these to a small plate before he starts.

Have the second helpings carved as they're needed. Sliced meat cools quickly, but the whole roast does not. What's more, he who carves will have an opportunity to eat after the first round of serving.

We are happiest when we are doing our best work.

Your Congressman Reports....

By Cong. Robert McClory

In the lengthy Congressional debates culminating in last year's comprehensive Civil Rights Act, voting rights were subordinated to the more dramatic issue of "public accommodations."

This explains, in part, the present dilemma requiring additional Federal "voting rights" legislation. Control of elections and establishment of voting qualifications are essentially state functions. However, the 14th Amendment to the Federal Constitution requires all of the 50 states to guarantee to all citizens the equal protection of the laws. In addition, the 15th Amendment provides that when voting rights are denied in any state the Congressional representation of that state shall be reduced in the proportion that the number of citizens who are denied voting rights shall bear to the total number of citizens in the state.

Furthermore, the 15th Amendment prohibits discrimination against voters on the basis of race or color.

Legislative measures based upon the 14th and 15th Amendments to the Federal Constitution are now before the Congress.

There is, for instance, the bill (H.R. 6264) sponsored by Congressman Sidney Yates of Chicago which would reduce the number of U. S. Representatives in any state which deprives a substantial number of its citizens of the right to vote. One may ask initially whether a threat to reduce a state's representation in the Congress would encourage such a state to grant equal voting rights.

No hearings on this proposal have been scheduled. It should be observed that this bill is limited to Federal elections (and, if enacted, would result in punishment of the citizens of an entire state for the misdeeds of those who control the voting machinery. In addition, such legislation, if enacted, could not guarantee a right to vote for local or state officials.

Indeed, it would assure no voting rights in Federal elections. Instead, it would merely have the effect of reducing a state's representation in the Congress if the penalties under Congressman Yates's bill should be invoked.

On the other hand, legislation introduced some weeks ago by this Member of Congress and others—and now recommended by the President—would establish Federal registrars or examiners in those areas where discrimination against Negro voting rights is practiced.

However, the measure recommended by the President has inherent in it the danger that it might subject all state election and voting laws to Federal control. In our desire to end public protests and demonstrations, and in response to an overwhelming public demand to implement Constitutional voting rights, we must avoid an excess of Federal power.

In the measure proposed by the President, assumption of authority by the Federal government would depend largely upon the decision of one man—the United States Attorney General. The bill introduced by me and a number of other Members of Congress would require a decision of a Federal Court before Federal registrars could move in.

I prefer the approach and protection afforded by my version. However, the objectives appear to be the same.

Blow your own horn if you must, but not at a pedestrian. According to the Institute for Safer Living, a sudden blast from an auto horn more often than not only succeeds in startling and confusing a pedestrian rather than alerting him to your approach. Right or wrong, a pedestrian may appear on the roadway almost anywhere and motorists must be prepared to assume responsibility for their safety.

ALONG THE WAY with Annie Mae

Tuesday, April 20, this town will present again to its voters a fairly large number of candidates for various Village offices. Judging by the silence of all campaigning, this gal wonders just how many candidates are actually eager to win their respective elections. We're definitely not in accordance with mud-slinging or torch rallies, but honestly we do believe that an aspiring politician must have some opinions on the very pertinent issues facing those who manage the affairs of our fair town. Remember, (to borrow a cliché from Casey Stengel) "he may be a nice guy, but nice guys don't win ball games."

THE LATEST REPORT: While we're on the subject of politics, we hear that the Republican Annual Dinner last Saturday was one of the quietest affairs of recent months. Are you wondering as I am what happened to Modern Home Products showroom on Lake St.?

After announcing a March 25 opening, they papered up the windows on the 23rd, with many a hint about a future date. Tony and Shirley Stanich are taking a large dose of Florida sunshine. (Wonder who wrote the prescription?) ... and a tiny seedling was born to the

Charles Foresters, (if my informant was right, I think it was a little girl).

NOTES TO YOU: Found out just one day too late about Fred Pierce last week, he is re-cooping from an illness at home, and we wish him a speedy return. ... somebody in this town seems to have an aversion to losing out the C. of C. Christmas tree. It's still very much in evidence on Main St. ... Also re-cooping from recent surgery, but back on the job a few hours at a time, is that lady of great stamina, Martha Hunter.

THE LAST DROP: Our personal bouquets to Lou De Falco for portraying one of the best character drunk roles we have seen ... now I'd like to get a little personal for a minute. Somehow we feel we're getting a little stale, and so-o-o-o would like a few suggestions as to what exactly you would like this column to be. If you have anything you think we might cover in this column that is not included elsewhere in the paper, please let us have your ideas.

Did you hear? If there's anything harder than breaking a bad habit, it's to refrain from telling people how you did it.

Habitually yours, Annie Mae

Yesterdays

THE OBSERVER 1941

Never mind if you were behind the door when the brains were passed out. A sign in a window across the street says "Brains, 14c a pound."

Add needed inventions—a calendar that has last year and next year on it, as well as this year; a "spare" battery arrangement for cars, so when one goes dead you can switch over to the other; a non-slipping, fool-proof automobile jack; non-vanishing pencils for the News office.

It was a long time till noon Monday for some folks who "wondered why that whistle didn't blow," and then looked at their clocks and watches to see if they were slow. But now the truth comes out. Seems Marshal William Thieman was all wrapped up in his job of renovating the Village Hall a bit for the election next Tuesday, not wanting to come down from the ladder where he was perched, doing some painting, he was relying on Fred Peterson, street department supervisor, to sound off that siren. But Fred was busy too ... and an anxious investigator, dropping in at the village hall to learn whether Bill had been overcome with paint fumes or something, found him painting away, oblivious to time, at 12:20. So, now, folks, you know the inside story. Nope, that whistle didn't just go off and you didn't fail to hear it. It just didn't go off. But boy, you should see how nice the Village Hall is getting to look.

Meanwhile, Jim McMillen's dog, Pat, who howls whenever the whistle blows, is adding to his evening prayers, "P.S. and bless Mr. Thieman for not letting that whistle go off for once."

Mrs. A. K. Mueller of the Round - up Restaurant on Hwy. 21 was horrified to learn that someone had just put salt in the sugar bowls ... just when the Antioch Lions Club members were sitting down to a swell feed the other week ... especially as she at first thought some of the "boys" were just kidding. ... until she tasted it. ... But she felt lots better when she started get-

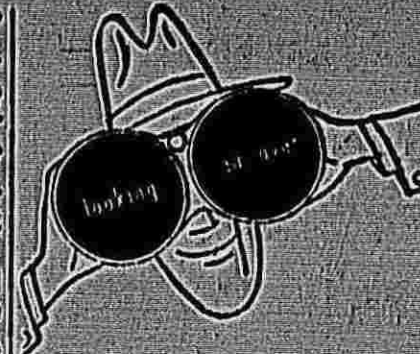

ting telephone calls the next day asking for the recipe for the 28-egg cake she served—a Hungarian torte that takes two pounds of sweet butter, in addition to the eggs. Seems the boys thought it was something that they would like the little woman at home to be able to whip up sometime at a minute's notice, or so on ...

Ill. Nurses Urge New Legislation

The Illinois Nurses Association is currently working for the passage of legislation in Springfield to modernize the Illinois Nursing Act. The Act has not been changed since 1951.

A dinner was held March 23 by the District 16 nurses at the Officers Club at the Great Lakes Naval Station.

Missed opportunity is the price of total reliance on comfortable security. —Dr. Edmund C. Neuhaus

By Pearl Kapell

It's friz deep in Wisconsin, and we're right close to Wisconsin.

Reports from the Wis. Dept. of Agriculture are that frost depths this year are 10 to 25 inches deeper than they

were at this time a year ago in southern Wisconsin, 20 to 40 inches deeper in central counties and up to 30 inches deeper in the north.

Snow depths this year are two to three times what they were a year ago. And it keeps on snowing—and snowing—and snowing.

And now when and if Spring finally waits (her warming breath across the land, and all that snow starts to melt, the water will get deeper—and deeper—and deeper. The Fox river will rise over its banks, as will the channels. Lowland cottages will be waterfront property for a while.

4th Graders Try Hand At Classic Play

For the last four weeks the Fourth Grade at Grass Lake School has been hard at work on a production of William Shakespeare's comedy, "Twelfth Night." The entire class will appear in this specially adapted version of the famous comedy.

The play, which will be presented on April 8, has the distinction of having the youngest group of actors ever to present a Shakespearean play.

In "Twelfth Night" the children have had a pleasant story to work with. The main plot is that of a sister and brother who are shipwrecked off the coast of the country of Illyria. Each is saved, and presumes that the other has perished. In order to be able to exist the sister takes on the identity of a young boy and joins the Duke of Illyria's household as a page.

Several cases of mistaken identity caused by this masquerade round out the first and main plot; but, as every reader of Shakespeare knows, the hard never fails to insert one or more sub-plots in a play. The humorist sub-plots make up a large part of the action. The youthful exuberance of the children can be highly contagious in such a play, and it definitely arouses more interest and enjoyment for the observers.

The cast consists of the following: Mariann Felder and Curt Johnson play the shipwrecked sister and brother; Michael Kelley is seen as the Duke of Illyria; Michael Wilson is Curio, a member of the Duke's household; Patricia Alsing plays the Countess Olivia, providing a romantic interest; Rocketa Geldon is Fabian, Jean Zimmerman is Valentine, two of Olivia's handmaidens; Susan Davidson, as Maria.

John Haling as Sir Toby Belch (the part in which Richard Burton received his first acclaim), James Goetz as Malvolio, and Michael Turek, as Sir Andrew Aguecheek, are a bunch of bumblers who make for most of the comedy in the play; Mark Gilmore and Patrick Lifford are officers in the Duke's service; Gary Larson plays a priest; Tracey Sharp is Feste, Olivia's jester; and Wendy Frerks and Patricia Geiger play dual roles as first sea-captains, and then handmaidens to Olivia.

The play, which is costumed as authentically as possible, will be presented on Thursday, April 8, at 7:00 p.m. at Grass Lake School. Admission is free, and guests are welcome.

The play was adapted for the 4th grade pupils by Marie Jasens.

Sams Promotes Safety Slogans

One of the recently appointed members on the Lake County Safety Commission, Kenneth G. Sams, is a very dynamic individual who advocates tighter control on driver licensing and traffic law enforcement. He has been concerned with the traffic safety problem for many years.

The population explosion, more people driving on the highway, and the condition of the roads all contribute to the overall safety picture. Industry does a good job by teaching their employees safe practices for accident prevention, he said.

Mr. Sams is the Executive President of Craft Amics Corp. located in Waukegan. He is a member of the Masons, Elks, and Kiwanis.

He has devised a series of safety slogans which when printed will be offered to retail outlets, industrial concerns, and utility companies to be included in their statements, pay envelopes and/or utility bills.

He was appointed this month by Sheriff Charles E. Larson, Chairman of the Safety Commission, to serve on the Enforcement Committee and the Legislative Committee. He will work with other members of these committees to implement programs which will help bring the importance of safety to the citizens of Lake County.

Our country! In her intercourse with foreign nations, may she always be in the right; but our country, right or wrong.—Stephen Decatur

The Bowling Clock

Your wrist watch can be a very big help in bowling, especially if you concern yourself with the area between nine and twelve o'clock.

Put your thumb into the ball at 10 o'clock. Now bring your hand straight down toward your side and look at the position of the fingers and the thumb. This is the position of the ball when it is released during the hook delivery. You will find that the amount of hook becomes less as you proceed from eleven to twelve.

At twelve o'clock and after, the ball becomes a reverse hook or "back up ball" which is not conducive to good bowling. Put your hand at the one o'clock position and release the ball slowly. You will see that the

fingers push the ball to the right instead of to the left for a normal hook—thus the name reverse hook.

I cannot stress too strongly that the women bowlers should never place their thumb in more than an eleven o'clock position. This will avoid the pitfall of having a back up ball. There are two reasons why women throw most of the back up balls. Women have a different arm structure which makes it more difficult to keep their arms in a good straight pendulum swing and they have a tendency to pull out fingers and thumb at the same time.

POLLS CLOSE DURING TOWN MEETING

Springfield, Ill.—When a town meeting is held at a polling place during a town-

ship election, the polls must close while the meeting is being held and re-open thereafter, Attorney General William G. Clark has held.

Central High Vocal Group Plans Concert

The vocal section of the music department of Central High School will present its spring concert, "It's Love, Love, Love," on Monday, April 5, at 8:00 p.m.

The Freshman Chorus will sing "I've Never Been in Love Before," "Lazy Afternoon," "Kentucky Babe" and "America, Our Heritage."

The following will be presented by the Girls' Glee Club: "Sanctus," "Hymn of Rejoicing," "God Gave Me a Song in My Heart," "In the Wheatfield" and "Every Night When the Sun Goes In."

Mixed Chorus will have for its program "O Rejoice Ye Christians Loudly," "Be Thou Exalted O My God," "Alleluia, Glorious Is Thy Name," "Onward Ye People," "Vigilant," "Seventy-six Trombones" and "Born to Be Free."

Several soloists and small groups will also perform. All groups are directed by Mr. Keith A. Lundie.

Poverty Study Made For Federal Funds

Gov. Otto Kerner has released a 301-page study mapping the range and depth of poverty in Illinois.

"This demographic analysis," the governor said, "provides the body of fact with which the Illinois Office of Economic Opportunity and our local communities can now seek federal funds for local community action and anti-poverty programs. As such the study constitutes an indispensable first step in a coherent plan for conquering poverty in our state."

The highest volume of poverty is to be found where the population of the state is concentrated—especially the Cook County region containing Chicago and a number of adjoining cities. Second in line are East St. Louis and nearby cities in Madison and St. Clair Counties.

When attention is turned to density, or "per capita" poverty, a block of adjoining counties in the southern tier of the state emerges as hardest pressed: Alexander, Gallatin, Pope, Pulaski and their neighbors, with such cities as Cairo, Metropolis and Mount Vernon, showing some concentration, along with the more rural sparse, but poverty-stricken areas.

DEATH NOTICES

MRS. MAREN S. SIMONSEN

Mrs. Maren S. Simonsen, 83 years old of 5407 Rosedale Ave., Chicago, passed away on Sunday, March 28, at 10:30 a.m. at the home of her daughter, Mrs. Helen Celing, suddenly from a heart attack. She was born February 14, 1882 at Stavanger, Norway and came to America in 1907 to reside in Antioch until moving to Chicago 5 years ago. She married Simon P. Simonsen on October 3, 1908 in Chicago, and he preceded her in death on May 15, 1958.

Mrs. Simonsen held membership in Olson Camp No. 59 of the Royal Neighbors of America, and Antioch American Legion Auxiliary. She and her husband had farmed in the Antioch area before he became village marshal in 1924 and held this position until 1934.

Survivors are two sons, Edgar S. Simonsen (Antioch fire chief), Walter P. Simonsen, Waukegan, three daughters, Mrs. Anna Ankerberg, Mrs. Helen Celing and Mrs. Jack (Mabel) Dunning, all of Chicago, and nine grandchildren.

Funeral services were held at 1:00 p.m. Tuesday at the Strang Funeral Home in Antioch. Rev. Donald Cobb of the Antioch Methodist Church officiated at the services. Interment was in Ridge wood Cemetery near Des Plaines.

MRS. ESTELLA L. FOWLER

Mrs. Estella L. Fowler, 78 years old of 1054 S. Main St., Antioch, passed away on Monday, March 29, at 6:20 a.m. after a three year illness. She was born Jan. 25, 1887 at Cheshire, Mich., and moved to St. Paul, Minn., in 1899, then to Drummond, Wis., in 1923 where she resided until moving to Antioch three years ago.

She held membership in the Cable Congregational Church. She was a member and past president of the Drummond Community Club. She and her husband had operated a farm and summer resort at Drummond. She was preceded in death by her husband, Frank Fowler, on Feb. 2, 1962.

Survivors are one son, Arthur B. Fowler, Fort Wayne, Ind., two daughters, Mrs. Robert (Blanche) Poth, Circle Pines, Minn., and Mrs. Edward (Mary Louise) Serres, Antioch, seven grandchildren and eight great-grandchildren.

Funeral services were held at 11 a.m. Wednesday at the Strang Funeral Home in Antioch. Rev. Marshall Peterson of the Immanuel Baptist Church at Waukegan officiated.

An Apple A Day ... Fresh From IGA

Fresh every day—That was the main point Rich Kufalk talked about the other day at the IGA store. Rich is the produce manager at the local IGA market.

"It comes fresh every day from the IGA produce terminal in Chicago, Rich said." "We watch our buying very close he added and with good rotation during the day we can maintain the quality we want."

Rich put action to his words as he talked by re-arranging a display of Washington State delicious apples, a special last week. "We do our best to maintain the quality," Rich stressed "and we request complaints."

"The vegetables that take water are sprinkled every hour and all the produce is displayed in refrigerated counters."

Apparently the temptation was too much for Rich because we caught a candid shot of him biting into one of those Washington State's as we left.

Remember—It's fresh everyday—it's rotated periodically so you get the freshest of the fresh—refrigerated and sprinkled to maintain the best quality. So, if it's produce, get the best... at IGA.

And if they have any left, get some of those Washington State apples, they're delicious...

New Lutheran Church To Open Charter

The St. Stephen Lutheran Church, newly-forming congregation in Antioch under the auspices of the Lutheran Church of America, will open the congregational charter this Sunday during the morning worship service, 9:30 a.m., at the Antioch High School, where the group is presently holding services. The charter will remain open for four Sundays, at which time it is expected enough adults will have signed to enable the group to formally organize into a congregation.

Worship services began in December, 1964, in the cafeteria of the high school. Due to the encouraging responses at the services the opening of the charter has become a possibility after only four months of worship. The Rev. Wilton H. Anderson, 566 Highland Ave., Antioch, is the pastor. Anyone interested in becoming a charter member of St. Stephen is invited to call the pastor at 395-1822.

The 3.2 million member Lutheran Church in America establishes through its Board of American Missions about 100 new congregations each year. Nearest to Antioch are new congregations in Fox Lake, Grayslake, and Wauconda. The Grayslake congregation will dedicate the first unit of its new church this Sunday, April 4, at 11 a.m.

Where The Boys Are

Marine Lance Corporal David White

Marine Lance Corporal David C. White is presently stationed at DaNang, South Viet Nam. He is the son of Mrs. Kathleen White, 303 Park Ave., Antioch.

Airman Raymond D. Noško, son of Mr. and Mrs. Anthony P. Noško, of Rt. 4, Antioch, has been selected for technical training as an air policeman at Lackland AFB, Texas.

Airman Noško, who enlisted in the Air Force a short time ago, has just completed his basic military training. Schools at Lackland are part of the vast Air Training Command system which trains airmen and officers in the diverse skills required by the nation's aerospace force.

The airman is a 1964 graduate of Salem Central High School, Paddock Lake, Wis.

CHRISTIAN SCIENCE CHURCHES

How the power of God operates in human affairs is explored in this week's Bible Lesson to be read at all Christian Science churches. "The Golden Text is from Luke (18:27): 'The things which are impossible with men are possible with God.'"

Several dramatic examples will be read from the Bible, illustrating the availability of divine power in overcoming the discordant conditions of material existence. The subject is "Unreality." Citations from the Christian Science textbook will include these lines: "From beginning to end, the Scriptures are full of accounts of the triumph of Spirit, Mind, over matter. . . . When a man is governed by God, the ever-present Mind who understands all things, man knows that with God all things are possible."

SPAGHETTI DINNER

The Oakland Grade School PTA is holding a spaghetti dinner on April 5 at the school, at Loom Lake and Deep Lake roads. Serving will be from 5:30 p.m. to 7:30 p.m. Tickets are available at the door.

MOOSE TOPICS

By Lillian Birdsall

The Sportsman's dance held at the Antioch Moose Lodge last Saturday evening was a complete success. Dancing was to the music of the Visions with approximately 125 persons in attendance.

Ed Peterson, governor of Antioch Moose Lodge 525, with Mrs. Peterson, Arthur Anderson, secretary, and Mr. and Mrs. Scotty Birdsall attended the Legion Memorial and initiation ceremony held at the Highland Park Moose Lodge last Sunday afternoon.

Mr. and Mrs. Meyer of St. Petersburg, Florida, were visiting guests for the afternoon. A smorgasbord was served following the meeting.

Initiation for the L.O.O.M. will be held at the Antioch Moose Lodge on Saturday, April 10 at 8 p.m. All members having candidates should turn in their applications before the next regular meeting which will be held on Wednesday evening, April 7.

It seems as though the Antioch Traveling League needs a doctor for some members of the bowling team. Jack Christiansen and Art LaPlante bowled good only to forfeit three games played at Waukegan Sunday. The last game scheduled for the Antioch Traveling Bowling League will take place at Harvard, Sunday, April 11.

Lois Johnson, chairman of the Homemaking Committee will present her chapter night program at the meeting for the W.O.T.M. to be held at the Antioch Moose Lodge this Thursday, April 1 at 8 p.m.

There will be a fish fry at the Antioch Moose Lodge Friday evening, with serving from 6 p.m. to 9 p.m.

News of Former Antioch Minister

The Rev. G. R. Tuttle, a former minister of the Antioch Methodist Church, asked to be remembered to the Antioch church family in a phone call from O'Hare Field to the Charles Maplethorpe home Wednesday evening, March 24.

He was en route to his home in Wenatchee, Wash., from a three week trip to the Holy Land. He stated he had also been in Egypt and had visited the Red Sea, where he had received a good tan while swimming.

That morning he had been in Greece and had flown to the U.S. by way of London. He was scheduled to arrive in Wenatchee early Thursday morning.

Rev. Tuttle's Christmas letter to friends in this area had reported he was greatly anticipating this trip, which was made possible by the help of some members of his church in Wenatchee.

KNOT HEAD TRIP PLANNED BY SQUARE WHEELS

The Square Wheels square dance club of Deerfield is planning an extra excursion in addition to the regular dances.

The club will hold a "Knot Head" trip to Streator, Ill., on April 24, and a dinner dance at the Officers' Club in Fort Sheridan on April 10.

A Knot Head trip is one where a group of square dancers go by bus and/or car a distance of over 100 miles, attend a square dance and return the same evening.

American Legion Auxiliary News

By Del Jahneke

This year, the American Legion Auxiliary is focusing the Foreign Relations Program on Costa Rica, located in the center of this hemisphere community called the Americas, according to Mrs. Arthur Soby, Foreign Relations chairman for the Antioch American Legion Auxiliary No. 748.

Disaster struck this nation in 1963 when a volcano erupted, spewing lava and volcanic ash miles wide and inches deep over a large section of fertile farming and dairy land; it will be some years before the area can be reclaimed. Meanwhile, the dispossessed people must learn new trades to earn a living.

The American Legion Auxiliary - CARE Program, "Tools for Training," will provide some of the tools and equipment needed to give men, women and young adults the opportunity to learn a skill by which they can support themselves. Items include metal workers' kits, metal turners' kits, electrician's, mason's and woodworker's kits, sewing machines, auto mechanic's kits, a carpentry workshop and a carpentry including band and bench saws, drill presses and wood lathes, industrial sewing machines and welding units with accessories.

Puppet Show For Children On April 10

A double feature puppet show is scheduled for a Saturday matinee at the Palette, Masque & Lyre Theatre on Main St. on April 10.

The More puppets will perform the two shows, "Ghoulie at the Circus," and "Punch and Judy," starting at 2:30 p.m.

The sell-out response to PM&L's last children's play, "The Elves and the Shoemaker," convinced the directors that they should have more fare for the children. Although designed for children, many adults find the puppet shows entertaining, too. "We haven't run across any grown-ups in the Chain O' Lakes Region who have seen a 'Punch and Judy' show," reported Ken Smouse, president of PM&L.

Mr. and Mrs. Kent More, of Wilmette have traveled extensively with their puppets and have a fine repertoire. If this venture proves successful, more shows of this type will be offered in the future.

Tickets may be obtained by calling Mrs. Vivian Maplethorpe at 395-3611 or at the box office. Only one performance of the show is scheduled.

PARENT-CHILD CANA CONFERENCE SLATED

On Wednesday evening, March 24, a group of husbands and wives gathered at St. Peter's Youth Center to discuss and plan for the Parent-Child Cana Conference to be held at the St. Peter's Youth Center on Sunday, April 11 at 1 p.m.

The conference will deal with the physical, psychological and spiritual development of the child and the many practical problems involved in raising and enjoying children.

All parents who have preschool and grade school age children are urged to attend. Baby-sitting service will be provided for any who are in need of it.

W. S. C. S. SCHEDULES SPECIAL MEETING

A special invitation is being extended to the ladies of the Methodist Church to come and get acquainted with their Woman's Society of Christian Service at the meeting on Wednesday, April 7, at 12:30.

An Easter reading entitled "The Other Wise Man," will be given by Mrs. Donald Gibbs.

Ruth Circle will serve the dessert luncheon. Mrs. Dortha Runyard and Mrs. E. H. Glenn are co-chairmen of this group.

WESLEY EVENING CIRCLE

By Del Jahneke

The Wesley Evening Circle of the Antioch Methodist Church will hold their regular meeting on Thursday, April 8, at 8 p.m., at the home of Mrs. Robert Remis, with Mrs. James McDowell as her co-hostess. The Devotions will be given by Mrs. Charles Meierdick, with Miss Betty Lu Williams presenting the program on "Non-Christian Religions." Mrs. Wallace Anderson will be presiding officer.

WOMAN'S CLUB TO TOUR BAKERIES

Members and guests of the Antioch Woman's Club will tour the Sara Lee Bakeries in Deerfield on Monday, April 5. The ladies will meet at the Scout House in Antioch at 10:30 a.m. Luncheon will precede the tour.

Topics for Today's Women

ALL ABOUT BABIES...

A Public Service of the National Baby Care Council

By Mary Macdonald, R. N., Professional Baby Counselor, Collingswood, N. J.

ACCIDENT PROOF YOUR BABY

You can accident proof your baby, if you anticipate the many stages of his growth and development.

This is true during a baby's first six months of life, a period we discussed in a recent column. It is even more true during the second six months of life.

This is usually referred to as the curious stage. Here is what you can expect of your baby during this period.

Baby begins to sit, creep, stand and walk. Everything baby touches goes into his mouth. He pulls up on tables, chairs and any object

within his reach. He's curious about many things.

Knowing all of this, and anticipating these normal manifestations of his curiosity as he grows, makes it possible for you to observe the following safety precautions:

Keep Things out of Reach

Because baby puts everything into his mouth, it becomes essential that you keep harmful and dangerous articles out of his reach. Household poisons and medicines, for example, should be nowhere near baby's orbit. Remove small, breakable objects from coffee tables and places within easy reach of baby's hands. Don't leave buttons, needles and other small objects around the house where baby can get at them.

When Diapering Baby—

Make sure there are no diaper pins close enough for baby to grab and that all pins not in use are closed. When you are through diapering baby, put away all pins. Use care in pinning the diaper. Professionally processed diapers are softer and easier to pin.

Watch Your Tablecloths—

Tablecloths should not hang over the edge of the table, not when you have a baby around the house. Baby will want to pull up and see what is on the table and he will use the tablecloth as a hoist. Also, keep hot foods and liquids in the center of the table so they are out of baby's exploring fingers.

Give Baby a Lift—Occasionally lift baby up so he can see the tops of things. This satisfies his curiosity about the hard-to-get heights which challenge him.

A Fenced-in Play Area—

When you're busy with your household chores there's only one place for baby: A fenced-in play area or a playpen where baby can see you and you can see baby. A playpen will keep baby out of the kitchen and from under foot.

LIFE WITH BABY CAN BE A JOY

Listening a baby gurgle, seeing the miracle of that first smile, observing baby's response to the marvels of a strange new world—all of these can be sources of wonder and excitement for the young mother.

Too often, however, the new mother in an unfamiliar role, finds she has a fussing baby on her hands. The unnecessary fears and tensions that result are enough to spoil any enjoyment she might otherwise get from her offspring.

Experienced mothers know that a baby who is physically comfortable and receives a full measure of love and tenderness, will be a happy baby. By observing a few simple rules designed to promote baby's physical comfort and provide the sense of security baby needs, the new and inexperienced mother can spare herself many hours of anxiety.

1. Sleep is important to the new infant. The mattress should be firm, bedding smooth and well tucked in, coverings light and loose to allow free movement.

2. Before baby can move about in his bed by himself, change his position frequently.

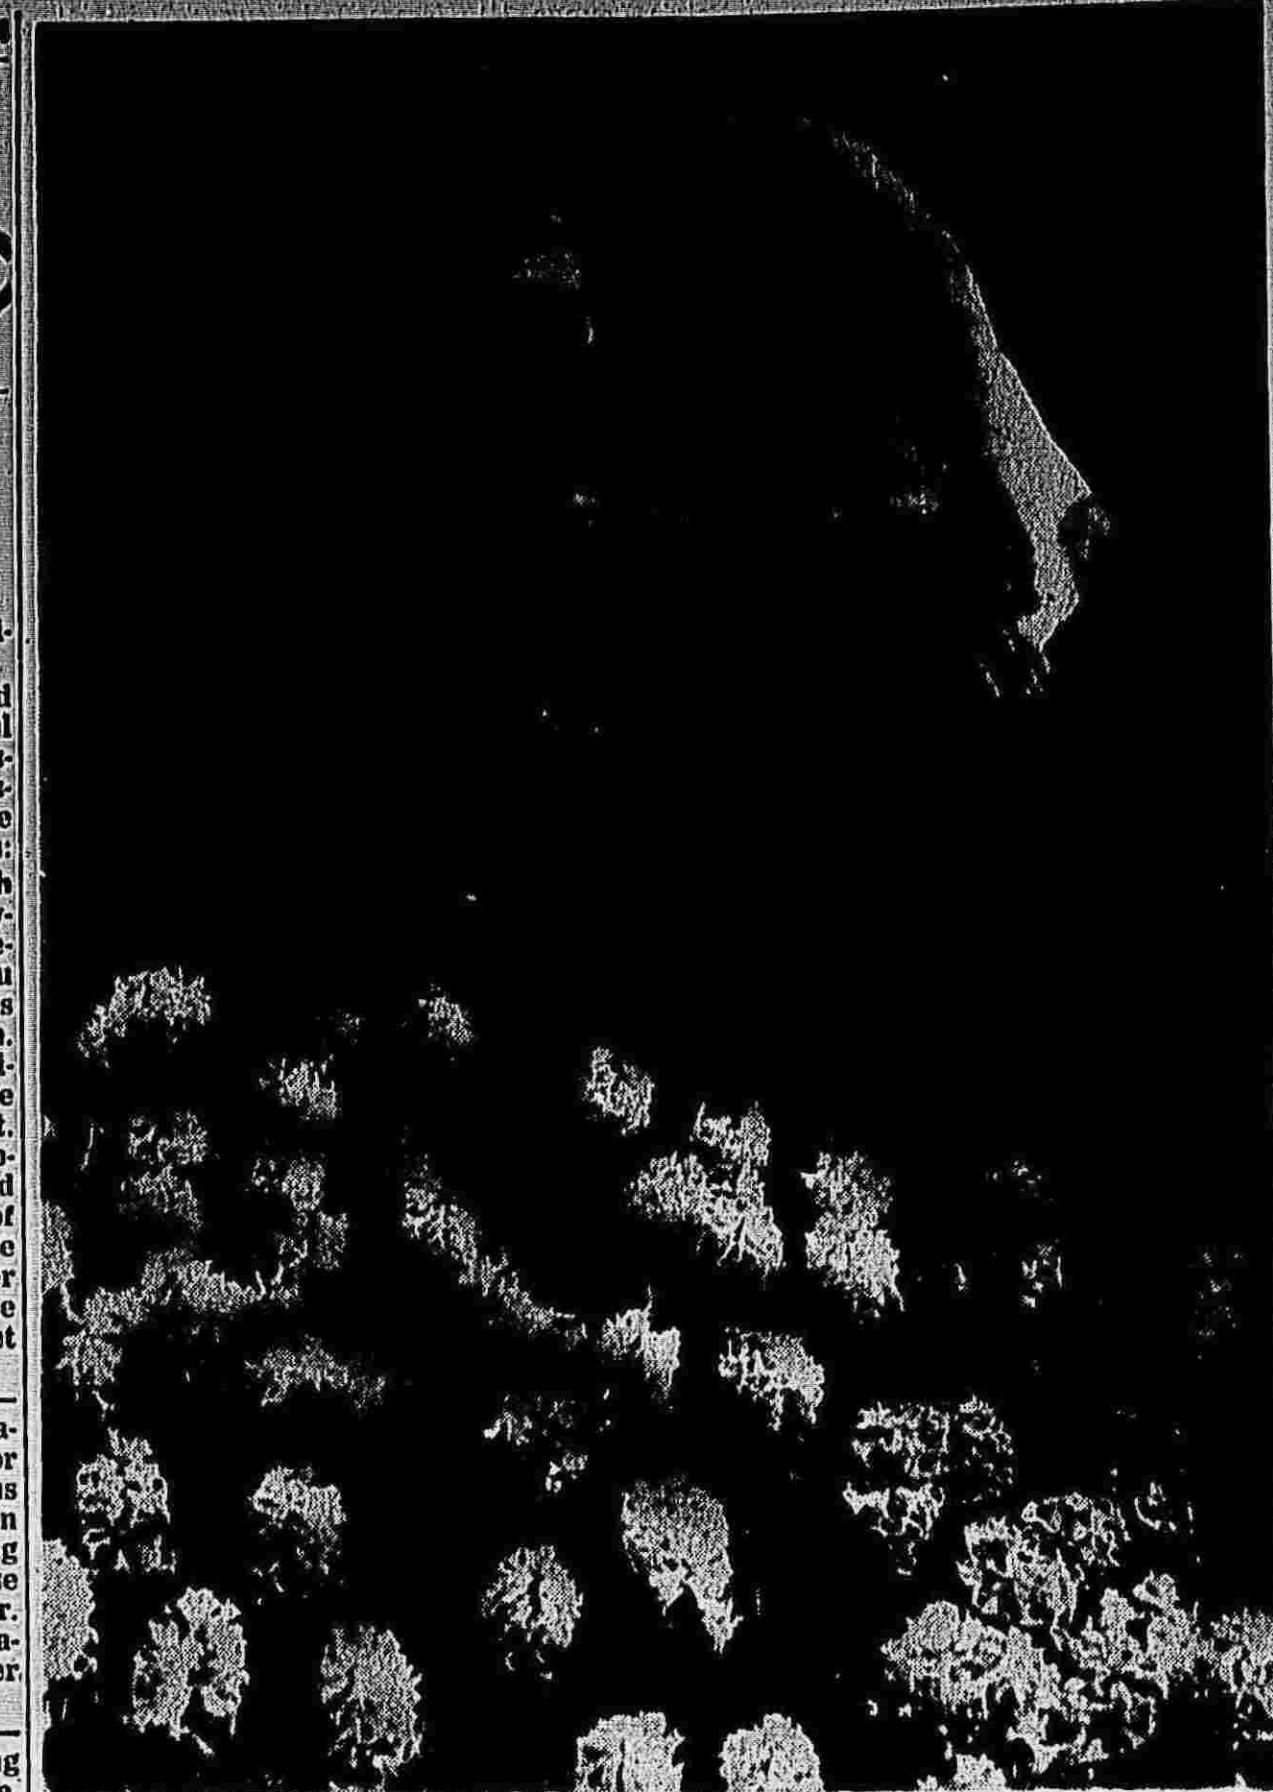

3. Keep the temperature in baby's room as even as possible, between 70-75 degrees.

4. Baby's room should be well ventilated but never drafty.

5. Diapers should be soft, absorbent and non-irritating. Even carefully laundered diapers may irritate baby's delicate skin unless all soap has been removed by repeated rinsings. Diaper services guard against this by an elaborate rinsing process and by impregnating the diaper with special antiseptics to help lessen the chances of diaper rash.

6. Make sure baby is always in a clean dry diaper. Cleanse the skin carefully with each change.

7. Don't overdress baby,

A VISITOR at the World Flower & Garden Show records a planting on color film for later study as an aid in planning her own garden.

Dr. SIMS says... SAFEGUARD YOUR HEALTH

A PUBLIC SERVICE OF THE ILLINOIS STATE MEDICAL SOCIETY

CARBON MONOXIDE WINTER KILLER

Despite constant warnings, carbon monoxide snuffs out the lives of 400 Americans every year. Most of its victims are stricken during the winter months. They include hunting parties in northwood cabins, motorists who warm up their cars in closed garages, and people who sit or sleep in parked cars with the motor running.

What makes carbon monoxide such a deadly persistent killer?

The answer lies in its physical characteristics—or rather lack of characteristics. A product of imperfect combustion in stoves, furnaces and exhaust fumes from automobiles, carbon monoxide gas is non-irritating, tasteless, colorless and practically odorless. Its only warning is the symptoms produced once the gas has worked its way into the victim's bloodstream.

The victim of carbon monoxide poisoning usually experiences a tightness about the forehead, headache and dizziness. He'll feel tired and his eyes will blur. Soon there may be nausea, vomiting and a fluttering of the heart, followed by unconsciousness and then—death.

Death results when the inhaled carbon monoxide replaces the oxygen in the red blood cells depriving the body tissues of needed oxygen.

Should one of your family or loved ones become a carbon monoxide victim this winter, move him into fresh air, keep him warm and render mouth-to-mouth respiration. As soon as possible call the physician.

Of course, it's far more desirable to stop carbon monoxide poisoning BEFORE it starts. This can be accomplished by following these simple rules:

1. Make certain that gas

indoors or out.

2. Try not to take baby outdoors when the weather is windy or damp. In winter, dress baby warmly, covering his hands and ears but not his face.

3. Let your baby feel that everything you do for him is a pleasure to you—never an unpleasant chore.

4. Play with baby when he's fully awake, after his nap or before his bath. Talk to him, fondle him, rock him in your arms. During the first few weeks, you can't spoil him with too much love.

fittings, gas heaters, chimneys and dampers in your home or hunting lodge are in top working order.

2. Never run the motor of your car when it's in the garage UNLESS the garage is well ventilated.

3. Never sit in a parked car—even for short periods with the motor on and the heater running.

4. Always leave a window open—as well as a vent—when driving. Actually an open window creates a draft which helps exhaust fumes seep up through the floor-

boards. Opening the vent and window, however, sends a fresh flow of air through the car and out the window. Shut the vent ONLY when following another car in bumper-to-bumper traffic or passing through a tunnel behind other vehicles.

These simple rules are the big four of carbon monoxide safety. Follow them—and you'll remain safe from one of the deadliest of all winter-time killers.

SALAMI—WITH EGGS

Like egg salad sandwiches in your home? Add new zest to the filling with chopped salami along with diced celery and mayonnaise enough to moisten.

Those who strive for merit shall attain success.

HOW TO GET MORE FUN OUT OF HOME MOVIES

by Skip Miller

THE STORY: HEART OF HOME MOVIES

Mark Twain was a great story-teller. Most of his stories were about people. The greatest stories usually are. Hollywood capitalizes on this, reaping millions of dollars annually by telling human-interest stories on that magical silver screen. Everyone loves a good story.

Why, then, not apply this common sense to our personal movie-making? Why not teach our camera to tell a story?

Photo courtesy Keystone Camera

It's easy. We start by doing what our parents did at bedtime when we were youngsters. Say . . . "once upon a time there was . . ."

A little girl. She gets her first pair of roller skates. Puts them on. Nervously, hanging onto the garden gate, she tries taking her first strides. Slowly but surely she gains confidence. Finally, letting go of the garden gates, she takes her first full glide.

Next! Pop! The inevitable happens. Just then a little neighbor boy dashes over, gallantly helps the little girl to get up, and patiently teaches her how to skate. It's fun to watch. It's more fun to record on film.

The ending of our movie shows the little girl and little boy, hand-in-hand, going down the sidewalk toward the candy store. Where are the little girl's skates? Over her shoulder, of course. Where else?

We've used this illustration to let you see how easy it can be to evolve a story format for even the simplest of movies.

All stories, no matter whether short gags or an evening-long theater play, must have a beginning, a middle and an end. Deciding which elements will serve for each of these

three. Now connect them. Add some details. Throw in an interruption or two. Your story is taking shape.

Next, make some notes on how you will photograph each one of these elements. Number each of the proposed scenes, deciding on changes of scene, just as any good story teller changes the tone of his voice as he changes the dialogue.

We're ready for the movie-shooting itself. Select all the outdoor scenes for outdoor shooting sessions, scheduled for the shooting so we don't have to retrace our steps. Doesn't matter whether we shoot the first scene now, or in the middle or at the end . . . we'll splice that first scene into its proper position after all filming is completed. This is true of any scene, of course.

While shooting, include all the interesting action. Omit that which isn't. Ask yourself, constantly, whether what you are shooting actually helps to tell the story.

Don't forget close-ups. A close-up of a child's hand, reaching through the playpen spindles, grasping for that toy just out of reach, emphasizes a momentary complication in the child's life. No need to shoot such a scene from half-way across the living room. No, indeed; a close-up is much more effective. Such movie-making makes for a much better story-teller. So use this technique.

Next week, in this column, we'll suggest ways of letting your camera's eye take over many of the story-telling functions. Doesn't matter whether your movie camera is a veteran of many years, or a new electric-eye, zoom-lens-equipped camera, we can teach it some story-telling tricks.

Meantime, between now and next week, we hope you'll give yourself one tiny story-telling assignment, then pick up your camera and shoot it. Prove to yourself, with one roll of color film, that you are capable of being your own Cecil B. DeMille. We're certain you'll make good.

Commissioned As First Lieutenant

SFC Robert C. Lubkeman, Antioch, was commissioned as a first class lieutenant (United States Army Reserve), Corps of Engineers, on Wednesday, March 24, in a ceremony at the Armed Forces Reserve Training Center, 1721 McArac Road, Waukegan.

Lt. Col. Edwin K. Smith, Jr., subsector commander, officiated at the event, witnessed by Major Peter V. Heinen, executive officer of the second battalion of the 337th Regiment. Upon commissioning, Lt. Lubkeman was assigned Company H of the 337th Regiment (BTO).

Classified

Lt. Lubkeman attended Antioch Grade School and High School, then Bradley University, where he majored in building construction. He enlisted in the Army Reserve in March, 1957, and took his basic training at Fort Meade, Maryland.

Upon completing basic, he was sent to Bemborg, Germany, for the remainder of two year tour. Upon return to Lake County he was assigned as first sergeant of Company G, 337th Regiment (BTO), until his commissioning.

Lt. Lubkeman is married, and the father of two children, Marc Robert, 6, and Matthew James, 2.

P.O. Gives Souvenirs At World's Fair

Visitors to the New York World's Fair post office will find something new has been added this year, the Post Office Department announced this week. The fair opens April 21.

Souvenir cachets—compliments of the post office—will be available to patrons who visit the lobby, where the displays have been revamped and philatelic services expanded.

Sufficient cachets have been printed to provide a maximum of two free envelopes for each person antici-

ated to use the services of the post office, which is located in the northeast section. It can be located by consulting maps that are affixed to the many mail boxes set up in various parts of the fair grounds.

Post Office Department artists designed the souvenir cachet which shows the post office against a background of the fair's symbol, the Unisphere. The inscription at the bottom is "Souvenir Issue, United States Post Office Department, New York World's Fair 1938." Right vertical appears an invitation to "Take a Trip with Mr. Zip."

The souvenir cachets will be available only at the World's Fair post office. Again this year, visitors will be able to take a behind-the-scenes tour and watch a modern post office in operation.

SOIL MOISTURE IMPROVES

Soil moisture supplies continue to improve across the state during the last month, according to the Illinois Weather and Crop Bulletin. Soil moisture was reported as adequate last week by 82 percent of the reporters of the Illinois Cooperative Crop Reporting Service.

Livestock have generally remained in good condition despite muddy lots and changeable weather.

HIGH SCHOOL PTA TO ELECT OFFICERS

The PTA of the Antioch Community High School will have nomination of officers at the regular meeting on April 7 at 8 p.m.

Exercise Car For Top Performance

The best way to get top performance from your car is to drive it, according to John H. Struben, director of the Chicago Motor Club's emergency road service department.

He pointed out that just as a person needs a certain amount of exercise to keep in good physical condition, a car should get more of a workout than the usual day-to-day driving.

Struben, advised motorists to head for the open highway occasionally to exercise their cars. This doesn't mean, however, that you must drive at excessive speeds. It isn't speed your car needs—just a reasonable workout to keep it in good running condition, he said.

A brisk run at highway speeds, Struben added, helps improve battery efficiency, removes carbon from the spark plugs, and frees sticky valves.

Your car's operating performance, he emphasized, won't be improved by leaving it in the garage, parked in front of the house, or driven only a few blocks in city traffic.

The program will explain the Foreign Exchange student program. Foreign Exchange students and their American "parents" will be present.

Office Rules Back In The Good Old Days

The following were actually the office rules in existence in the not so good-old-days.

1. Office employees will daily sweep the floors, dust the furniture, shelves and showcases.

2. Each day fill lamps, clean chimneys and trim wicks. Wash the windows once a week.

3. Each clerk will bring in a bucket of water and scuttle of coal for the day's business.

4. Make your pens carefully. You may whittle nibs to your individual taste.

5. This office will open at 7 a.m. and close at 8 p.m. daily, except on the Sabbath, on which day it will remain closed. Each employee is expected to spend the Sabbath by attending Church and contributing liberally to the cause of the Lord.

6. Men employees will be given an evening off each week for courting purposes, or two evenings a week if they go regularly to Church.

7. After an employee has spent 13 hours of labor in the office, he should spend the time reading the Bible and

THE ANTIOCH NEWS THURSDAY, APRIL 7, 1965

other good books while contemplating Glories and building up the Kingdom.

8. Every employee should lay aside from each pay a goodly sum of his earnings for his benefit during his declining years so that he will not become a burden on the charity of his betters.

9. Any employee who smokes Spanish cigars, uses liquor in any form, gets shaved at a barber shop, or frequents pool and public halls, will give me good reason to suspect his worth, intentions, integrity and honesty.

10. The employee who has performed his labors faithfully and without fault for a period of five years in my service, and who has been thrifty and attentive to his religious duties, and is looked up to by his fellowmen as a substantial and law abiding citizen will be given an increase of five cents per day in his pay, providing a just return in profits from the business permits it.

BE WORTHY OF YOUR HIRE.

ALTAR & ROSARY TO HOLD HAT SHOW

An informal hat show will be presented by Marianne's Dress Shop at the meeting of the Altar and Rosary Society

of St. Peter's Church on April 5.

The show will be a preview of Easter bonnets. Rosary and benediction begin at 7:45 p.m. in the church.

Marysville, Calif., Appeal-Democrat: "When the richest nation in the world must seriously consider penalizing any citizen who leaves the country as a tourist the sum of \$100, then things are in pretty bad shape. . . . The \$100 head tax is designed to discourage Americans from going overseas and to reduce

their spending there if they do go. . . . The Russians do the same thing, of course. They always have. But there remains—just in case anybody thinks it's still worth mentioning—that little deal called freedom, which the U. S. government is supposed to respect. To restrict the free movement of citizens is not to promote freedom."

The world is my country, all mankind are my brethren, and to do good is my religion—Thomas Paine—Rights of Man.

annual written report.

HB 891 would permit publication of names and allow communication media reporters to attend Family Court hearings when a minor has committed an act which would be a penitentiary offense if committed by an adult.

HB 587 would prohibit discrimination in wages and wage rates because of sex.

SB 41 requires licensed medical practitioners and registered nurses seeing a child without a doctor to report physical abuse.

SB 371 provides a moratorium on the death penalty to July 1, 1971, except for hired assassins and those killing public employees.

HB 28 abolishes capital punishment except for treason, or murder of law enforcement officer or prison guard.

SB 9 requires PKU tests

for all newborn and a note that the test has been given to appear on birth certificates.

SB 395 exempts doctors who provide, in good faith, emergency care at the scene of accidents from civil liability suits.

SB 396 exempts dentists from civil liability under the same conditions of emergency care as provided in SB 395.

HB 605 provides for free distribution of measles vaccine and appropriates \$1,400,000 for the purpose.

SB 253 requires automatic revocation of driver's license for theft of, damage to, or unauthorized use to commit crime with, an auto. SB 254 requires Family Court to notify the Secretary of State when a minor appears because of theft of, damage to, or unauthorized use to commit a crime with, an auto.

Start Cancer Fund Drive

Some 5,000 volunteers in Lake County today begin their intensive fight against cancer.

After long planning the American Cancer Society starts its month-long educational and fund-raising Crusade against Cancer with confidence.

"We have never been better prepared," Mr. Earl Hagen, County Crusade Chairman, declared. "Volunteers have responded with enthusiasm, eager to establish a new record. I am confident they will. All know the success of their assignment will help save lives from cancer through research, education and service. It is a serious job and they know it."

Action this week included: a "Kick-off" dinner attended by Community Chairmen and Co-chairmen, press and radio representatives, at the Parkway Restaurant in Waukegan March 31, at which Dr. A. H. Somers, Lake County Unit Executive Board Chairman, Dr. John J. Zannini, Vice-chairman of the Executive Board, and Mr. Hagen delivered inspirational messages to the workers; today's issuance of the Crusade Against Cancer commemorative five-cent postage stamp by all local postmasters; start of the house-to-house residential Crusade in many communities where efforts will be made to complete the residential Crusade by Cancer Sunday, April 4. The office of the Lake County Unit at 228 N. Genesee Street, Waukegan, will be open from 4 to 8 p.m. on next Sunday to receive Crusade donations from workers. In the communities where a house-to-house Crusade is not being conducted, a mailing of life-saving leaflets and requests for donations is in process.

Mr. Hagen listed the primary objectives of the Crusade as: making sure that all the people in Lake County know and understand the life-saving facts about cancer, how essential early detection and prompt treatment are in dealing with cancer, the value of an annual physical checkup as an instrument of early detection, and the importance of more research in solving the cancer problem.

The 1,300,000 Americans now alive, saved from cancer, emphasize the effectiveness of educational, research and service programs. Education leading to early detection and prompt treatment alone could save half of those who develop cancer. Only one out of three is now saved. More research—for which greater funds are needed—is the only hope for complete control of cancer.

"Knowing the needs," Mr. Hagen said, "I am confident the people will respond. It is not only a duty but a privilege. There is no greater privilege than helping to save lives."

Goal of Lake County Unit's April Crusade is \$75,000.

NIU Scholarships Now Available

Approximately 80 Northern Illinois University-Awarded scholarships totaling about \$12,000 are available for the 1965-66 school year. Philip L. Shields, coordinator of student financial aids, announced. Applications are available in Shields' office and must be completed and returned by May 3 to receive consideration. Since all the scholarships contain certain restrictions, Shields urged prospective applicants to read carefully pages 76-83 in the 1965-66 NIU Undergraduate Catalog.

A new \$500 scholarship has been made available to NIU by Tower Finance Corporation, Chicago. H. G. Janis, president of the firm, announced the scholarship for men who plan to become elementary teachers and who plan to enroll at NIU. It is available either to present NIU students or 1965 high school graduates who will enter NIU in September. Shields also has applications for this scholarship which must be completed and returned by May 1.

Sequoits Launch 1965 Track Season

Antioch launched their 1965 track season Saturday when eight members of the squad competed in the annual 'Oak Park' Indoor Meet. After a scant week of workouts Coach Roger Andrews was well pleased with the Sequoits' showing.

Competing against some 80 high schools, Tom Morgan finished 14th in the 50 yard dash in a field of 112 boys. Morgan's best time was 5.8. Jim Edwards also ran the 50 in the good time of 5.9.

Bruce Dalgard finished 15th in a field of 85 competitors in the 60 yard high hurdles with a time of 8 seconds flat. The Sequoits ran 7th with 24 teams competing in the 8 lap relay. Eight laps is comparable to the mile relay. The team, Tom Morgan, Martin Swede, Jim Litchfield and Jim Effinger, ran it in the time of 3:15.4 for a new school record.

The four lap relay team, Tom Morgan, Bruce Dalgard, Jim Litchfield and Jim Edwards, also set a new school record running the race in a time of 1:27.8. The team finished 12th.

The spring relay team, never run by an Antioch squad before, finished with a time of 3:31 for the distance, about a mile. Martin Swede, Effinger, Bill Sheldon and Tom Wojnowiak formed the team.

Other competitors for Antioch were Bob Schenk in the high jump and Jim Edwards in the broad jump. Schenk went 5' 10" to finish well down the list and Edwards' best effort was 19' 9 3/4".

Track Squad Looks Good

In spite of some eight inches of snow on the ground, 82 track hopefuls turned out for the first session last week at Antioch high school. Represented were 15 seniors, 22 juniors, 23 sophomores and 22 freshmen.

Weather and ground conditions permitting, the first meet is scheduled for April 5 on Antioch's cinders. According to coach Roger Andrews, it looks now as if the season won't open till April 12, when the Sequoits have a meet scheduled here against Elia-Vernon.

Eight members from last year's squad are back again to form the nucleus of what looks like another fine team. Tom Morgan, 100 yard dash conference champion of last year, heads the list of top contenders this year. Morgan also finished third in the 220 last year.

Coach Andrews will be looking for a lot of help from Bruce Dalgard and Jim Edwards. Dalgard ran 2nd in the high hurdles last year in the conference and was a top competitor all season. Edwards also comes with pretty good credentials: Fourth in the 100, 3rd in the broad jump and 4th in the high jump.

Jim Effinger, 2nd in the 880 last year, is expected to do as well or better this season and will be a big help in the relays. Also returning is Bob Schenk. Schenk tied for 1st in the high jump last year.

Three other boys expected to help out are Tom Wojnowiak, Martin Swede and Bob Flood. A letterman last year but not out for disciplinary reasons is Vince Casella. John Sheppard is also lost due to scholastic difficulties. Casella competed in the weights and Sheppard in the pole vault.

Coach Andrews cited a number of boys who have looked good thus far in practice. Seniors: Chuck Weber, dashes; Jerry Smith, pole vault; Paul Williams and Vic Rogers, weights; and Jim Filiatreault, distance runner. Juniors: Dave Fabry, low hurdles; Bill Greear, Terry Harrison, Eric Leavell and Bruce Young, middle distance runners; Mike Sternbenz, sprints; Mike Kelly, hurdles; Bill Meyer, weights; and Don Johnson, high jump. Sophomores: Blaine Backman, mile run; Jim Litchfield and Bill Sheldon in the sprints; Glen Oftedahl, high jump; and Tyrone Walls in the hurdles and the weights.

News of Lakesports

Speedway Opens Early This Year

The snow and foul weather which is becoming a steady thing in Lake County hasn't stopped progress to open the 1965 racing season at the Waukegan Speedway. Modified drivers and Late Model drivers will hear those famous words, "Drivers Start your Engines," on Saturday night, April 24.

A check of Lake County Racing Association drivers revealed that almost every driver who competed last season will be back with the addition of some new drivers from the Milwaukee area. Most of the modified cars have been completely rebuilt for the long season ahead. The maintenance crews at the speedway have been busy removing snow and grading the track and pit area for improved drainage and drying.

The entire track was resurfaced with 6 inches of new clay last fall and a recent inspection revealed a perfect bond took place through the winter. For this reason, the Waukegan track should be in excellent condition this year. Construction of the new after-race gathering area will begin this week.

Jim Sullivan of Antioch will be driving a new modified car powered by a very large Chrysler of undetermined cubic inches. The Rookie of 1964 Geno Wagner will once again sit behind the wheel of the modified A4 now owned by the A4 racing team of Antioch. The hardluck owners of 1964 have put together a fine modified car which will be up in front and in the thick of it during 1965. The car is owned by Trans-Motive of Waukegan.

Waukegan Speedway has changed its racing nights this season. Modified and Late Models will run on Friday nights, and Figure-8 and Late Models will be billed on Saturday nights. Opening night April 24 and May 1 will offer Modified and Late Models.

Dragway Open April 3

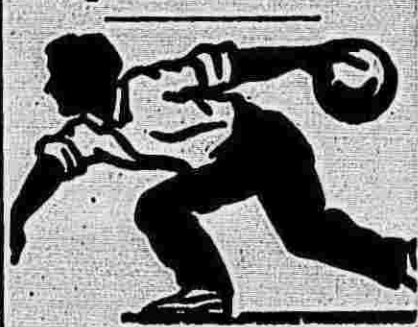

The Great Lakes Dragway at Union Grove, Wis., will open its 9th season of drag racing this coming Saturday and Sunday, April 3 and 4, with a big two-day event. More than 200 cars and drivers will compete in this big opening weekend program.

There will be a complete separate event each day with cars from all over the mid-west competing. With the big boom in drag racing over the past few years many more drag racing machines have been built in this part of the country.

The new engine parts and new tires produced by the manufacturers have caused the speeds on the big nitro fuel dragsters to make 200 miles per hour more the rule than the exception. More than a full second has been cut off the elapsed times with the powerful racers now covering the 1/4 mile in well under 8 seconds. Nine different divisions comprised of over 100 classes race, every Sunday and holiday, including anyone who wishes to compete with the family car. All cars compete against cars of equal weight and horsepower, giving everyone an equal opportunity to win.

Races will be held every Sunday and holiday afternoon throughout the summer with occasional Saturday races for special events. Time trials start at 9 a.m. Races begin at 2 p.m. The drag strip is located just 20 miles south of Milwaukee on highway 45 at Union Grove.

for the beginning of the season. Watch this newspaper for information regarding the Thrill Show which has been scheduled for June 23. This show will offer automotive thrills and spills such as you have never seen. You will see head-on collisions, fire wall crashes, and cars flying through air.

Business meeting of the Aid in the church parlors at 1:30 p.m. The public is invited.

The Spring Thrift Sale will be held in the church basement May 15. Collection of articles for the sale about May 1.

Mr. and Mrs. Wayne Clark, formerly of Millburn, will

celebrate their 50th wedding anniversary at their home in Zion Sunday afternoon, April 4.

Mr. and Mrs. Garrett Trout were callers at the home of Mr. and Mrs. John Kelly of Chicago Sunday afternoon.

Mr. and Mrs. Robert Smith, Mr. and Mrs. John Edwards and family, Ronald, Susan and Lynn of Libertyville spent Sunday afternoon at the home of Mrs. Frank Edwards, celebrating Mrs. J. Kalil's 90th birthday.

Mr. and Mrs. Elmer Hauser and family of Waukegan and Mr. and Mrs. Glen Hauser and son, Kevin, of Antioch, spent Sunday evening at the home of Mrs. Frank Hauser.

Charles Paulsen of Knox College, Galesburg, is spending several days vacation with his parents, Mr. and Mrs. William Paulsen.

Robert Clark of Wadsworth was a Sunday dinner guest at the home of his mother, Mrs. Harley Clark.

Week-end guests at the William Paulsen home were Mr. and Mrs. John Clem of Urbana and Mr. and Mrs. Walter Paulsen and Mr. and Mrs. Robert Paulsen of Glen Ellyn.

Mrs. Carl Anderson and Mrs. Frank Edwards were callers at the home of Mrs. William Bonner Wednesday afternoon.

If you're not having a little fun every day, you're missing something.

Charges Control Over Hospitals Unhealthy

Edward W. Gilgan, Chairman of the Illinois Committee on Rural Health Facilities, has charged "it appears that certain forces are seeking to prevent rural citizens and physicians from building hospitals in Illinois."

Gilgan, a hospital administrator said Senate Bill 397 would grant extraordinary powers over hospital construction to the Illinois Department of Public Health, using the excuse that such powers are needed to prevent hoodlums from entering the hospital construction field.

Gilgan said he represented groups of citizens who are attempting to get permits to construct hospitals in rural areas. "These citizens have been prevented from proceeding by the delaying tactics of the Health department," he said.

He charged that some elements in the hospital field were interested in preventing further construction of facilities in order to curtail competition and protect their vested interests.

"Any curtailment of competition in the hospital field means that the public will be denied the benefits of health competition," Gilgan said, "benefits which include lower rates, shorter hospital stays, better food and more

personalized service." He further charged that rural community hospitals have shown that they can and do render quality medical service at the lowest charges available in Illinois.

He further alleged that S. B. 397 would vest the Director of Public Health with dictatorial powers over all hospital construction, "meaning that the Director would make the decisions as to whether a hospital would be built in a local community—not the citizens who reside there."

The establishment of such a principle, he said, could lead toward eventual government control over all phases of medical care.

Instruct Boys In Forestry

Enrollment is now open for Lake County Boys who want to attend the 14th annual Illinois Boys' Farm Forestry camp set for August 1-7.

The camp, located on Lake West Frankfort near Thompsonville, helps boys become better acquainted with timber, soil and water conservation, according to Lake County Farm Adviser Ray T. Nicholas.

At this camp the boys have an opportunity to learn more about the practical application of forestry to farm operation. The camp also provides a background for managing farm woodlands for lumber and Christmas tree production or recreation and wildlife protection.

Boys 14 through 18 years old are selected on the basis of interest in forestry, leadership capacity or experience with a personal or group forestry project at home or in a school or club. Most boys who attended last year's camp were members of 4-H, FFA, Boy Scouts or church organizations.

Instruction at the camp is provided by nearly 30 qualified public and privately employed foresters, agricultural and conservation leaders and teachers under the direction of the Illinois Technical Forestry Association.

Lake County boys who would like to enroll in the Illinois Boys' Farm Forestry Camp should see or write to Mr. Ray T. Nicholas for further information before May 1.

Extra Exemptions On Income Tax

Every taxpayer is entitled to use his own personal exemption of \$600 in filing his Federal income tax return for 1964. E. C. Coyle, Jr., Director of Internal Revenue for the Chicago District, said today.

A calendar year taxpayer who was 65 or older no later than January 1, 1965, or who was blind at the end of 1964 is entitled to an extra \$600 exemption; if he is 65 and blind, he gets two extra \$600 exemptions.

WHIPPING BOY

Some people propose that the federal gasoline tax be boosted again. Similar proposals may be expected in a number of the states.

In the light of that, a little review of this tax's history is very much in order. It had its beginnings in Oregon in 1919 and was then only one cent a gallon. Other states swiftly followed suit and, over the years, the rates steadily climbed. The federal government got into the act. Now gas taxes, federal and state together, average more than 10 cents a gallon and bring in well over \$18 billion a day.

At the end of last year, the total thus taken from motorists since Oregon started the ball rolling was a staggering \$89.5 billion and the \$90 billion mark has undoubtedly been passed by now. In the next 14 years, even at present rates, another \$90 billion will be collected.

It certainly would appear that the motorist has been a whipping boy for the tax collector. No other necessity has carried anywhere near so heavy a burden of taxation as gas. And the argument that this is necessary—and that still higher rates are necessary too—in order to provide the roads we need calls for some second thoughts. Good roads benefit everyone everywhere—not just the motorist. And in many cases, gasoline tax revenues are diverted to purposes other than road building and maintenance.

The collective voice of all our millions of motorists should pronounce a resounding "No!" to any and all proposals for further gas tax boosts.

The taxpayer's wife is also entitled to these additional exemptions for age and blindness if she qualifies.

Mr. Coyle said a taxpayer who files a separate return may claim his wife's personal exemption and additional exemptions only if she had no income and was not the dependent of another taxpayer.

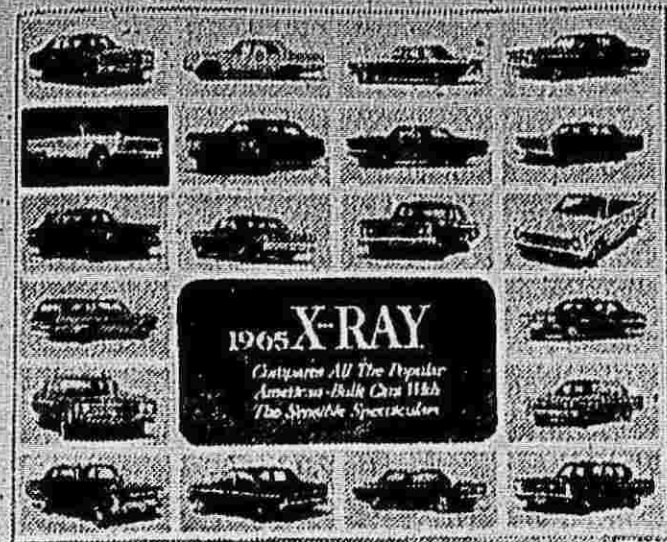

If your husband or wife died in 1964, the number of exemptions is determined as of the date of death.

TO THE VOTERS OF ANTIOCH GRADE SCHOOL DISTRICT NO. 34

I seek the position of member on the Antioch Grade School Board.

I am a property owner, taxpayer and native of Antioch, having been born and raised here. I attended both the grade and high schools here. My father before me served as a member of the Antioch Grade School Board for many years. The future of Antioch and the coming generation is of deep concern to me.

I am a graduate of the University of Illinois, and have taken additional courses to keep abreast of trends in education since attaining my degree.

I am presently engaged in education, and consequently fully cognizant of the problems confronting teachers, parents and children. I feel I know something about the needs, capabilities and training of today's youth, and am deeply interested in securing for them, our future citizens, the best possible education, economically and efficiently administered.

I therefore stand to serve the children, the taxpayers and the personnel of Antioch Grade School District No. 34.

I will appreciate your support at the polls April 10, 1965.

MAKING PLANS — Looking into final details for the Red Cross Industrial First Aid program are, left to right, Roy Bertrand, of Bertrand Bowling Lanes; Fred Burgess, industry first aid chairman, and John Beckman, first aid chairman for Lake County Region.

Red Cross Offers First Aid Training To County Industries

The Lake County Region of the Red Cross Mid-America Chapter will offer a free Red Cross Industrial First Aid program beginning on Thursday, April 8. Classes will be held on that Thursday and the next four Thursdays from 9 a.m. to 5 p.m. in Bertrand Bowling Lanes, 2616 Washington St., Waukegan.

Purpose of the intensive program is to train one or more representatives from Lake County industries so they can in turn train their fellow employees. This is the first time such a program has been offered to Lake County industries. It's being offered to meet demands for industry-gear safety training.

County industries that wish to enroll one or more employees in the course should contact the Lake County Red Cross office at 308 Julian St., telephone 682-4044.

Gospel Ranch Stages Special Music Night

The Gospel Ranch at Lake Villa is holding a Special Music Night Saturday, April 3, starting at 7:30 p.m.

Included in the evening's program will be numbers by a thirty-voice choir from Blue Island; the Masters quartet, the Marks Trio from Chicago, and music from the Hammond organ.

The Rev. Rudy Evenson is pastor of the Gospel Ranch. The public is invited to Saturday night's program. Gospel Ranch is located two blocks north of Grand Ave. on Grub Hill road in Lake Villa.

Swim or sink, live or die, survive or perish with my country was my unalterable determination.

Mormon Missionaries Working In Antioch Area

Two missionaries of the Church of Jesus Christ of Latter Day Saints, Elder S. B. Jones, from Price, Utah, and Elder V. E. Larsen from Preston, Idaho, are working in the Antioch area at the present time.

They are two of over 12,000 young men and women who give from one and a half to two and a half years of their time to go on missions for the church.

The "Mormon" church has been in existence for approximately 135 years. From its organization of six members in 1830, the church has grown to well over two million membership.

When asked why they give two years of their life to do this work, Elders Jones and Larsen say, "Because we know that God still speaks to man through his prophets as He did in ancient times. This began with the visitation of the Father and Son to the Prophet Joseph Smith in the year of 1820. Since that time there has been a living prophet upon the earth."

Elders Jones and Larsen will be calling on homes in this area and answering questions anyone has concerning their faith. They have two films, "What is a Mormon?" and "Mormon Pavilion at the World's Fair," each about 20 minutes long, which they will show to youth groups of other churches, social and civic groups, or privately in homes. Anyone interested may contact them at JU 7-5593.

Income Levels

"The question often arises at what age does the typically successful American earn most money?"

"Statistics taken from a large group of successful men show that total income received up to age 40 barely equals the income received during the next six years."

"The major accumulation period is most invariably age 55. In short money comes with age when there isn't much time left to enjoy it."—The Sumner Press.

MEAT BALL TIDBITS

Miniature meat balls are appetizing as a party snack. Season one pound of ground beef with one teaspoon of salt and an eighth teaspoon of pepper. Mold the meat mixture around stuffed olives or pickled onions. Bake in a shallow pan in a slow oven (300 degrees F.) 20 minutes. Serve with heated barbecue sauce. Yield: 40 meat balls.

HAM REFRIGERATION

Ham, "fully cooked," "cook-before-eating," or canned should be refrigerated as soon as brought home from the retailer. Plan to use the "fully-cooked" or "cook-before-eating" within 5 to 7 days after purchasing. Canned hams will, of course, keep longer, provided they are left in the can unopened and kept under constant refrigeration.

Backing into a curbside space requires a sharp look-out through the rear window for approaching traffic. Often, in crowded areas, the driver following you doesn't know you're going to park, so be sure to signal him.

Elder V. E. Larsen

Elder Stewart Jones

THREE CIVILIANS employed at Ninth Naval District headquarters, Great Lakes, were awarded \$15 each for their money-saving suggestions this week. From left to right are Mrs. Bobby M. Zurevoff of 3200 Grand Ave., Waukegan, Ill.; Miss Vivian M. Kandl of Rt. 2, Antioch, Ill.; Rear Admiral Howard A. Yeager of Salina, Kan., Commandant of the Ninth Naval District; and Mrs. Sylvia E. Bandmann of 2613 Pine St., Waukegan.

Oilmen Oppose Rise In State Gas Tax

The campaign by the Illinois Petroleum Marketers Association to dramatize the state's high gasoline tax levels and the adequacy of Illinois highways has drawn support from a second statewide organization of oilmen.

M. W. Patterson, Chairman of the Illinois Oil Council, announces that his group has formally endorsed the efforts of jobbers who recently concluded a petition-signing campaign in some 20 cities throughout Illinois. The jobbers, all local independent businessmen, sampled public opinion to determine if grass roots sentiment favored higher gasoline taxes for special highway building projects.

"We were gratified to learn that through the efforts of these jobbers thousands of motorists in our state have gone on record in opposition to higher gasoline taxes," Patterson said.

The chairman noted that Illinois motorists already pay almost 10 cents in taxes on each gallon of gasoline they purchase, the equivalent, he said, of a sales tax four and a half times that charged for luxury items such as jewelry and furs.

"Our own projections, based on state and federal studies, indicate that more than \$1.2 billion will be available for state highway construction and maintenance in Illi-

nols over the next four years," Patterson said. "This record level of spending will be possible without further gasoline tax increases."

"The analysis shows, beyond question, that there will be plenty of money available for Ill. highways. This fact, coupled with the strong public sentiment against further gasoline tax increases, is a clear mandate to our elected representatives to hold the line on gasoline taxes," he said.

Blindness from glaucoma can be prevented if detected early and faithfully treated. The Illinois Society for the Prevention of Blindness urges everyone over the age of 35 years to have their eyes examined at least every other year.

St. Mark Lutheran Church Calendar for the Week

Mary-Martha Circle will meet at the Rihimaki home on Deep Lake Road Thursday, April 1 at 1 p.m.

Council Meeting, 7:45 p.m. Thursday, April 1.

Lenten Worship is at 7:30 p.m. on Wednesday evenings. Choir practice at 8:30 p.m.

Prince of Peace Church

The Altar and Rosary Society will hold its monthly meeting after the Lenten services Wednesday, April 7. Ladies of the parish are invited to stay.

Volunteers are needed to help clean the Sanctuary. Anyone interested please call Mrs. Pleviak at El 6-7370.

The Young Christian Workers will sponsor a Preparation for Marriage series for single young adults on April 4 and April 11 at Immaculate Conception Parish Hall, 508 Grand Ave., Waukegan. The sessions begin at 7:30 p.m. Refreshments will be served.

First Baptist Church

The Lake County Association of Southern Baptist Churches will hear Home, Foreign and State Missionaries the week of April 11-16 in the 15 Southern Baptist Churches located in Lake

Downey Needs Part-Time Workers

Dr. W. W. Bourke, Director of the Downey Veterans Hospital, announces that applications are needed for part-time food service workers to work three hours each day, five days a week. Written tests are required.

Downey is a 2487-bed neuropsychiatric hospital for veterans located on Buckley Road adjacent to the Great Lakes Naval Training Center.

Persons interested in part-time employment may contact the Placement Officer, Veterans Administration Hospital, Downey (near Waukegan), Illinois, or telephone Ontario 2-1800, Extension 425.

DRINKING DRIVERS

Fortunately, a large number of drinking drivers are stopped by police before they have a chance to become involved in an accident. According to the Institute for Safer Living, drivers operating under the influence often reveal themselves by following erratic or irregular driving patterns which are readily detected by trained observers such as police. Even so more than 50 per cent of all fatal crashes in recent months have involved drinking or drunken drivers.

County. Rev. Quentin Lockwood of Omaha, Nebraska, will be speaking in the First Baptist Church of Lindenhurst on Sunday morning, April 11. Rev. Lockwood serves under the Home Mission Board and the Kansas Convention of Southern Baptist with which the Churches are affiliated. He helps co-ordinate and start new work in this large area.

Before coming to pioneer work in Nebraska he served churches in Georgia and Kentucky. He is a native of Kentucky, a graduate of George Town College and Southern Seminary in Louisville, Ky.

The public is cordially invited to come and hear a different missionary speaker each evening at 7:30 p.m. in the First Baptist Church, where the Rev. Joe Baker is pastor.

The annual Pancake Breakfast for the benefit of the Lake Villa Township Baseball Association will be held Sunday, April 4, from 7 a.m. until 1 p.m. at the VFW Post on Grand Avenue at the Soo Line tracks in Lake Villa.

All boys who plan on playing in the Little League or the Babe Ruth League must register during these hours that day. Tryouts will be held the following Saturday, April 10, at 10 a.m. for Little Leaguers. Babe Ruth League tryouts are slated for Sunday, April 11, at 1 p.m.

Parents of deaf children in Lake and McHenry counties will sell candy in Linden Plaza, Lindenhurst, Saturday, April 3 for the benefit of deaf children in the two counties.

Proceeds from the sale will be used to purchase books to start a library for the deaf children in the community.

One of the children attending this special school is Eugene Barnes, 5½ year old adopted son of Mr. and Mrs. Eugene Barnes, 2219 East Witchwood Lane, Lindenhurst. Gene started attending these classes before he was three years old, and is finishing his third year. His mother is assistant secretary of the Parents Association. Pamela Schultz of Grandwood Park is 5 years old and she has been attending for two years. A child in Venetian Village will be starting next term.

The special school has no school room of its own. They use an empty room in a different school each year. They teach the children to lip read, so they can speak.

Twenty women and three men attended the "Coffee" last Thursday evening at the home of Mrs. Margaret

French 2422 E. Grand Ave., wife of Admiral Reginald H. French, candidate for village president on the Lindenhurst Citizen's Party ticket. This was the first opportunity the people had to meet the candidate. He showed them the medals he received while in service and a letter he received from the Illinois Good Government Institute recommending him for village president.

LEGAL NOTICES

ELECTION NOTICE FOR BOARD OF EDUCATION OF SCHOOL DISTRICT NO. 36

Notice is hereby given that on Saturday, the 10th day of April, 1965, an election will be held at the Grass Lake School in School District No. 36, County of Lake and State of Illinois, for the purpose of electing three members of the school board of said district for the full term.

For the purpose of this election, said school district shall constitute a single election precinct and the polling place is established at the Grass Lake School Building on Grass Lake Road, Antioch Township, Antioch, Illinois.

The polls will be opened at 12 o'clock noon and close at 7 o'clock p.m., of the same day.

By order of the School Board of Said District.
Dated this 1st day of April, 1965.

ANTIOCH TOWNSHIP REPORT OF CONDITION

Year Ended January 31, 1965
JEDELE & CAIN Certified Public Accountants Antioch, Illinois
March 11, 1965

Mr. L. E. Murrice, Supervisor
Antioch Township
Antioch, Illinois

We have prepared from the books, as kept by our office, the attached statements of cash receipts and disbursements for the various funds of Antioch Township for the year ended January 31, 1965. In addition we have examined, reconciled, and verified the receipts and disbursements of each fund. Our examination was made in accordance with generally accepted auditing standards and included such tests of the accounting records and such other auditing procedures as we considered necessary.

Cash receipts and disbursements statements included are:
Schedule 1 - Summary of Funds
Schedule 2 - General Town Fund
Schedule 3 - Poor Fund
Schedule 4 - Road and Bridge Fund
Schedule 5 - Blacktop Road Improvement Fund
Schedule 6 - Special Funds

All cash receipts were traced to the separate depositaries and the various funds were reconciled by and verified by the banks. Selected bills were examined and compared with checks and endorsements. However, since the Township's books have always been kept on a cash basis, the attached statements do not reflect any bills which may remain unpaid at January 31, 1965. We understand that these unpaid bills are only the same type which recur from month to month.

In our opinion, the accompanying statements present fairly the cash transactions of the various funds of ANTIOCH TOWNSHIP for the year ended January 31, 1965, on a cash basis consistent with that of the previous year.

Yours very truly
JEDELE & CAIN
Certified Public Accountants
